Cautionary and forward-looking statements

- Some statements contained in this presentation or in documents referred to in it are or may be forward-looking statements, including references to guidance. Such statements reflect the Company's current views with respect to future events and are subject to risks, assumptions, uncertainties and other factors beyond the Company's control that could cause actual results to differ from those expressed in such statements. Although the Company believes that such forward-looking statements, which speak only as of the date of this presentation, are reasonable, no assurance can be given that they will prove to be correct. Therefore, you should not place undue reliance on these statements
- There can be no assurance that the results and events contemplated by the forward-looking statements contained in this presentation will, in fact, occur. The Company will not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this presentation, except as required by law or by any appropriate regulatory authority. Nothing in this presentation or in documents referred to in it should be considered as a profit forecast.
- The past performance of the Company and its securities is not, and should not be relied on as, a guide to the future performance of the Company and its securities
- This presentation does not constitute, or form part of or contain any invitation, recommendation or offer to any person to underwrite, subscribe for, buy, sell, otherwise acquire, exchange or dispose of any shares or securities in the Company or advise persons to do so in any jurisdiction, including, but not limited to, the Russian Federation, nor shall it, or any part of it, form the basis of or be relied on in any connection with or act as an inducement to enter into any contract or commitment therefore or engage in any other investment activity. In particular, this presentation and the information contained herein are not an offer of securities for sale in the United States. This presentation does not constitute an advertisement of any securities in the Russian Federation
- No reliance may be placed for any purpose whatsoever on the information or opinions contained in this presentation or on its completeness and no liability whatsoever is accepted for any loss howsoever arising from any use of this presentation or its contents or otherwise in connection therewith.
- The development and production plans and estimates set out herein represent the current views of the Company's management. The Company's Board reviews the production estimates on an ongoing basis. All planning is subject, inter alia, to available funding and capital allocation decisions
- English law and English courts will have exclusive jurisdiction over any disputes arising from or connected with this presentation

H1 2020 Financial Results

Higher gold sales at a higher average realised price resulted in revenue growth of 71% and EBITDA growth of 96%, while operating profit increased by more than US\$140m

1

Gold Sold (koz)

2

Avg. Gold Sales Price (US\$/oz)

3

Group Revenue (US\$m)

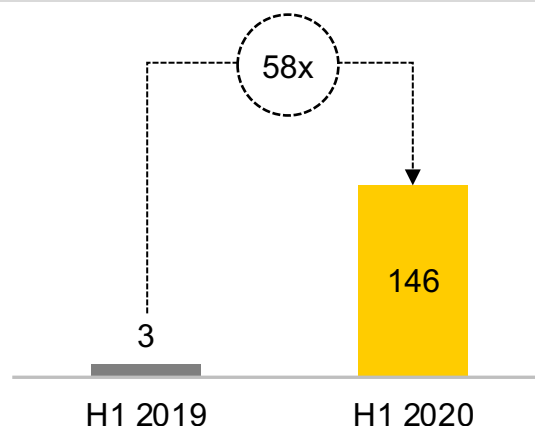

4

Underlying EBITDA (US\$m)

5

Operating Profit (US\$m)

6

Total Cash Costs (US\$/oz)⁽¹⁾

PETROPAVLOVSK

(1) H1 2020 TCC for 3rd party concentrate amounted to US\$1,380/oz (H1 2019: no 3rd party concentrate processed). 3rd party concentrate TCC is directly dependent on global gold prices

H1 2020 Financial Results Highlights

Strong operational performance resulted in higher volumes of gold produced / sold, at a higher average gold sales price vs. H1 2019, with production from POX making a material contribution

	Units	H1 2020	H1 2019	Change
Gold production	Koz	320.6⁽¹⁾	225.0 ⁽²⁾	+42%
Gold sold	Koz	312.4	225.0	+39%
Avg. realised gold price	US\$/oz	1,640	1,286	+28%
Group revenue	US\$m	522.7	305.3	+71%
Total cash costs (TCC, incl. 3 rd party gold)	US\$/oz	983	774	+27%
Total cash costs (TCC, own gold only)	US\$/oz	800	774	+3%
All-in sustaining costs (AISC)	US\$/oz	1,220	1,029	+18%
Operating profit	US\$m	146.1	2.5	n/m
Underlying EBITDA	US\$m	192.6	98.5	+96%
(Loss) / profit for the period	US\$m	(22.0)⁽³⁾	3.9	n/m
Cash generated from operations	US\$m	172.8	55.2	+213%
Net debt (as at 30 June 2020 and 31 Dec 2019)	US\$m	(538.0)	(561.3)	(3%)
Development capex	US\$m	54.4	36.8	+48%
Exploration capex	US\$m	5.2	8.2	(37%)

(1) Incl. 178.0koz from the processing of own and third-party refractory gold concentrates at the POX Hub (2) Incl. 61.3koz from the processing of own and third-party refractory gold concentrates at the POX Hub (3) The fair value loss on the conversion option of US\$122m reflects the increase in the company's share price being far above the bond conversion price (c.£0.11). The majority of this loss will not materially impact FY 2020 financial results, since at the date of this presentation, c.US\$87m of the bond has been converted. All conversions to date took place in H2 2020

H1 2020 EBITDA

96% EBITDA increase driven by higher gold sales at a higher average gold sales price, partly offset by the acquisition cost of third party refractory gold concentrate

(1) The considerable increase in overall group TCC is primarily driven by the purchasing and processing of 3rd party concentrate in H1 2020, whereas no 3rd party concentrate was processed in H1 2019. 3rd party concentrate TCC is higher vs. own metal TCC because 3rd party TCC includes the purchase price of the concentrate, directly linked to the gold price. However, 3rd party gold (TCC H1 2020: US\$1,380/oz) is profitable at the average realised H1 2020 gold price of US\$1,640/oz.

H1 2020 Operating Performance

Stable performance despite challenges associated with COVID-19

H1 2020 vs. H1 2019 production by operation

POX third-party concentrates (H1 2020: 106.9koz)

- Third-party concentrate processing continued during H1 2020, achieving recoveries of 94%
- Delays to delivery of concentrates were partly compensated by higher grades of concentrates

Malomir (H1 2020: 81.6koz)

- 67.3koz of gold was recovered from processing 76.4kt of Malomir refractory concentrates (92% recovery)
- 10.5koz of gold recovered by processing non-refractory gold via RIP (75% recovery)

Albyn (H1 2020: 71.8koz)

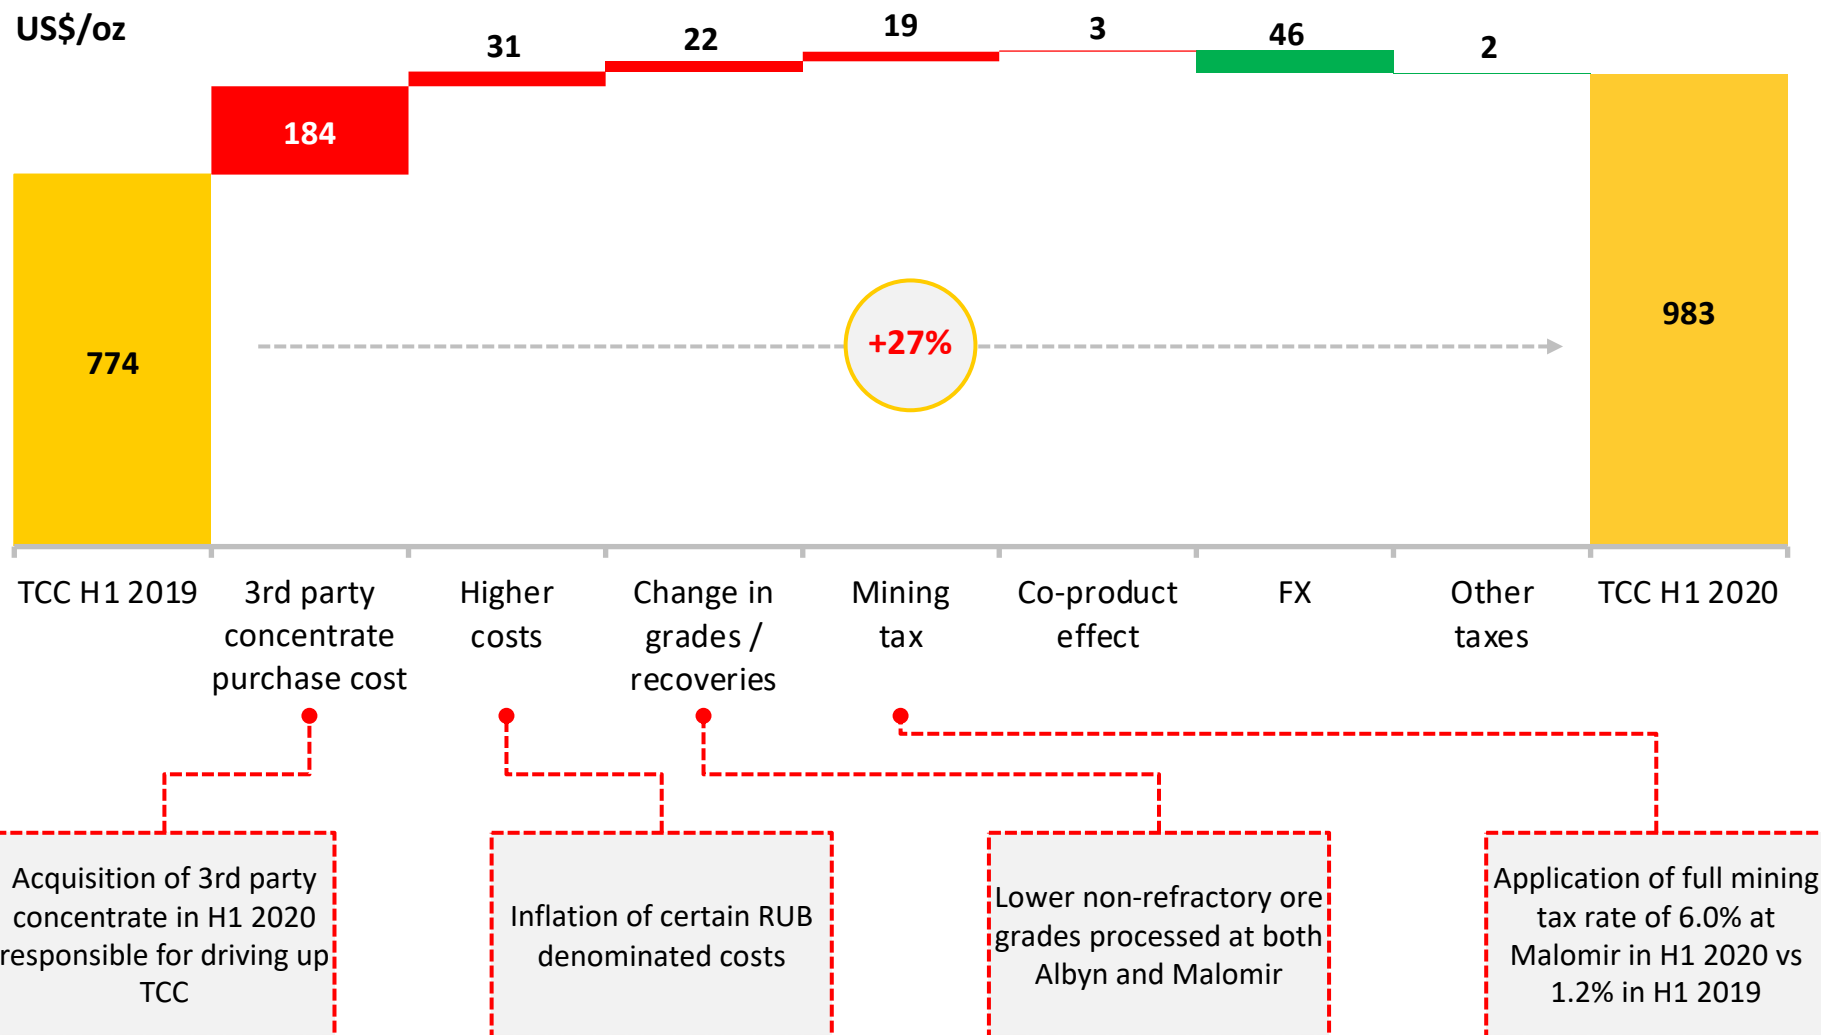

- Performance in line with expectations in terms of mined volumes and grades from Albyn main pit
- RIP plant recoveries in line with budget at 94%

Pioneer (H1 2020: 60.3koz)

- Weaker Q1 caused by higher dilution from underground operations, offset by stronger recoveries in the RIP plant (84% recovery)

H1 2020 TCC Breakdown

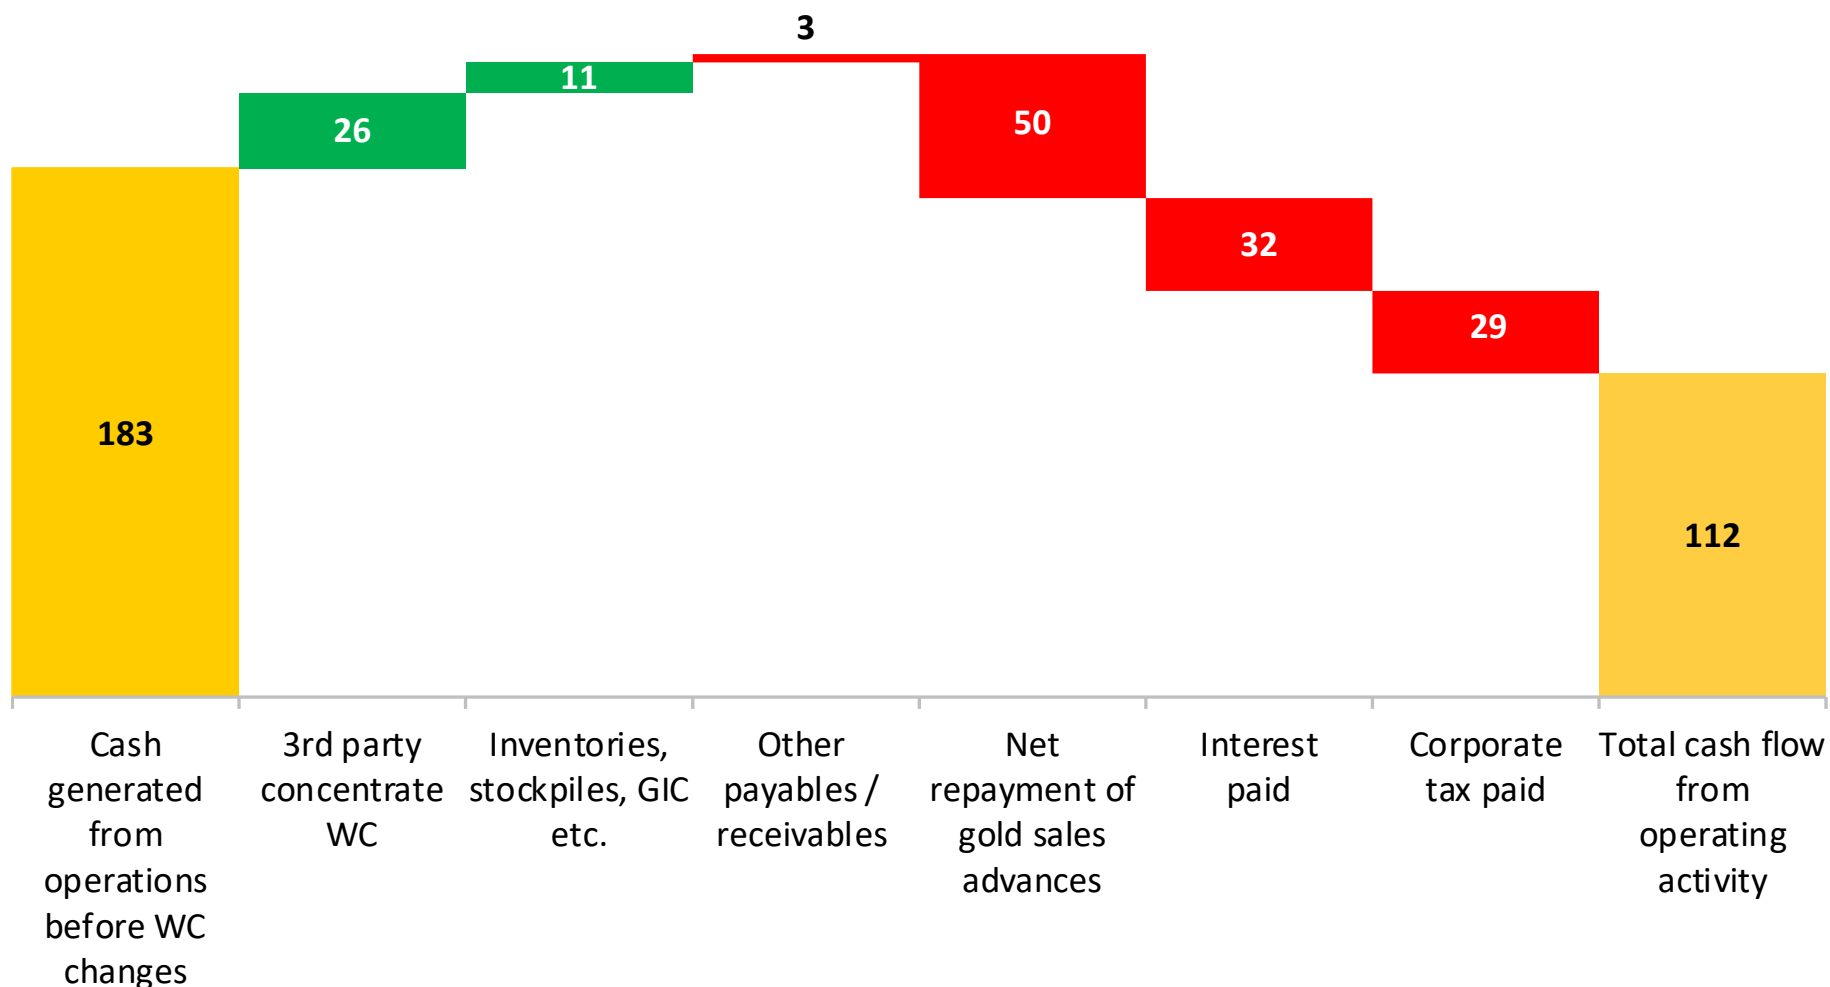

Majority of the TCC increase is attributable to costs associated with the purchase of 3rd party refractory gold concentrate, the price of which increases in line with higher global gold prices

H1 2020 Operating Cashflow Breakdown

The company continues to reduce the size of the outstanding prepay position, with a net movement of US\$50m in H1 2020. As at 30 June, US\$121m was outstanding

US\$m

H1 2020 Change in Net Debt

Net Debt⁽¹⁾ down by US\$23m in H1 to US\$538m

US\$m

H1 2020 Mine by Mine TCC and AISC

Higher AISC due to increased TCC and increased capitalized stripping expenses at Pioneer and Malomir, partially offset by material improvement in H1 2020 gold sales volumes

H1 2020 Total Capex Spend

Expenditure was focused on construction of Pioneer and Malomir flotation plants, Pioneer underground development work and exploration at Elginskoye

US\$m

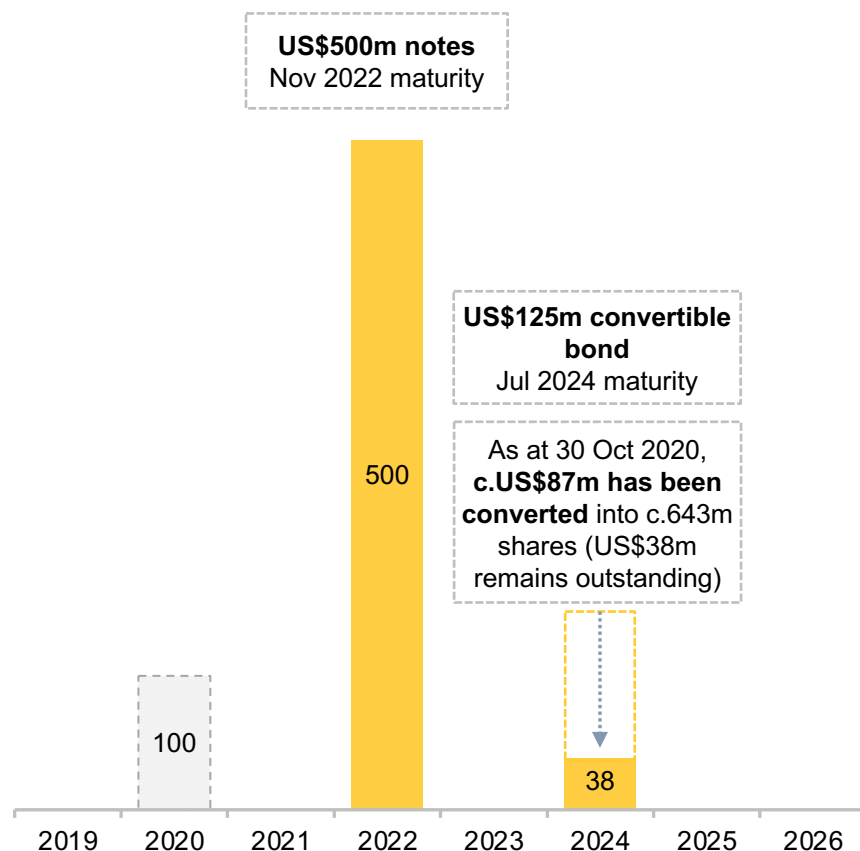

A Significant De-risking of the Balance Sheet is Underway

Net Debt / EBITDA ratio decreased from 2.1x as at YE 2019 to 1.5x⁽¹⁾

Group fixed income debt maturity schedule

US\$m

Net Debt / EBITDA Evolution

An aerial, black-and-white photograph of a large-scale open-pit mining operation. The image shows a vast, terraced excavation site with multiple levels of rock and soil. A network of roads and tracks crisscrosses the landscape, connecting different parts of the mine. In the foreground, a prominent, winding road or conveyor system cuts through the terrain. The background shows more of the mine's extensive reach, with various pits and processing areas visible. The overall scene conveys the massive scale and industrial nature of the mining activity.

COVID Update

COVID-19 Pandemic: Comprehensive Action Plan Implemented

Following the pandemic outbreak, the Company has proactively responded to COVID-19 developments in order to protect the health and wellbeing of all its employees

Emergency response team established to detect and limit possibility of the virus affecting the Group's operations

- Response team includes representatives from each of the Group's businesses in Russia
- If necessary the response team works with local authorities

Continuous monitoring of potential impact virus may have on the welfare of employees, communities and operations

Risk mitigation strategies focused on protecting all employees

- Provision of regular medical advice to prevent infection / spread thereof
- Thorough reporting culture of any infection or illness
- Appropriate resourcing to medical facilities across the Group

Small number of COVID-19 cases with limited impact on the operations. As at 25 Oct 2020:

- 28 reported cases in the Far East
- 1 reported case in Moscow
- All impacted employees are self-isolating or receiving medical care

Minor delays at supply chain / logistics, with ongoing monitoring and all necessary precautions in place to secure business continuity

- Supply channels remain fully functional with production inputs / materials predominantly sourced within Russia

Infection Prevention Measures

Employee and community actions taken

- ✓ Strict precautionary procedures in place at all production sites
- ✓ Mine shift pattern adjustments to lower frequency of new teams arriving onsite
- ✓ All employees and contractors undertake 14 days quarantine prior to start of each shift
- ✓ At least two rounds of COVID-19 testing for all employees upon (1) arrival to site for quarantine (2) prior to start of each shift, with additional testing carries out if required
- ✓ Restricted business travel with closure of Moscow and London offices until further notice, written authorisation required to enter buildings
- ✓ Daily check of staff temperature at start of each shift
- ✓ Check of temperature of any persons arriving on site
- ✓ Designated quarantine zones house individuals showing any flu symptoms
- ✓ Restricted contact between employees not connected by common production process at the mines and during shift changes
- ✓ All transport, public places (eg. dining areas, kitchens), utensils and food undergoes thorough disinfection and cleaning
- ✓ Purchase and distribution of PPE and disinfectants
- ✓ Raising awareness on symptoms, prevention and personal precaution measures
- ✓ Local community support with distribution of masks and hand sanitiser among local businesses
